SEQUENTIAL DELIVERY, METABOLIC BOOSTING FORMULA⁺

THRIVE SPT HEAT is a premium powder formula featuring Le-Vel's latest cutting-edge delivery method—SPT (Sequential Powder Technology).

Thermogenesis, the process through which the body produces heat to burn calories, is the primary way our bodies burn calories and fat. **HEAT** was formulated to boost this incineration process through its precise and synergistic combination of nutrients & botanicals. Unlike our other powerful powdered beverages, HEAT is poured directly into the mouth and dissolves instantly to provide benefits faster than ever before.

Take **HEAT** during the day (not before bed or when you take the 3 steps of the THRIVE Experience) on an empty stomach, between meals, or before exercise and get ready to exceed your fat-burning and weight-loss goals.
